# KAVITHA GOVINDANKUTTY NAIR SUGATHA

**Software Developer | Mobile Applications & Applied AI**

(512) 363-7451 | kavitha.sugatha@gmail.com | Austin, Texas 78750

LinkedIn: linkedin.com/in/kavitha-govindankutty-nair-sugatha-3a2473351 | Portfolio: kavitha-sugatha.github.io

## PROFESSIONAL SUMMARY

Software Developer with 5+ years of experience designing, developing, testing, and delivering cross-platform mobile and web applications using AngularJS, Android, Xcode, Corona SDK, and Lua. Skilled at translating business and user requirements into responsive, user-focused applications, integrating RESTful APIs, and collaborating with cross-functional teams across the full software development lifecycle. Additional expertise in React, Flutter, and Python, with hands-on training in Generative AI, AI agents, RAG, and LangChain/LangGraph.

## PROFESSIONAL EXPERIENCE

**Software Developer** March 2016 – April 2018

UST Global — Trivandrum, India

- Transformed existing web-based HR, attendance, request-management, and kiosk systems into cross-platform mobile applications using AngularJS and RESTful APIs.
- Developed responsive, modular, reusable code for consistent functionality and a user-friendly experience across platforms.
- Partnered with QA teams to resolve defects and contributed to code reviews, technical documentation, and development standards.
- Improved application accessibility, usability, maintainability, and overall release quality.

**Android Developer** August 2012 – May 2014

Zayan Infotech Pvt Ltd — Kerala, India

- Developed, tested, and enhanced Android applications, implementing responsive UI features focused on usability and functionality.
- Worked with cross-functional teams to gather business and technical requirements, plan features, and estimate project timelines.
- Coordinated development activities to support successful and timely mobile application releases.

**System Engineer / Software Developer** May 2010 – July 2012

Schogini Systems Pvt Ltd — Trivandrum, India

- Built mobile applications using Xcode, Android, Corona SDK, and Lua, applying cross-platform technologies and multiple languages to deliver secure, high-performing apps.
- Designed and delivered interactive educational applications and learning activities for pre-K and elementary students, supporting student learning through engaging user interfaces.
- Collaborated across the development lifecycle, from requirements and UI implementation through testing and release.

## ADDITIONAL EXPERIENCE

**Head Cashier** (previously Cashier) March 2026 – Present

Home Depot — Austin, Texas

- Handle accurate customer transactions and cash handling in a fast-paced retail environment; promoted to Head Cashier, supporting shoppers and the team during peak periods.

**Substitute Teacher** (Part-time) 2025 – Present

Nyos Charter School — Austin, Texas

- Facilitate classroom routines and lesson plans across diverse student groups, encouraging engagement, critical thinking, and structured problem-solving.

**Assistant Teacher** April 2025

Nest at Anderson Mill — Austin, Texas

- Supported lead teachers in delivering lessons and maintaining a positive, organized learning environment for young children.

## TECHNICAL SKILLS

**Mobile Development:** Android, iOS, Java, Kotlin, Cross-platform apps, Flutter, Corona SDK

**Web Technologies:** React, JavaScript, AngularJS, HTML & CSS, Responsive design

**Programming & APIs:** Python, RESTful API integration, MySQL

**AI & Automation:** Generative AI, AI Agents, LangChain & LangGraph, RAG, Prompt Engineering, AI Evaluation & Testing, AI for Business Applications

**Tools & Quality:** Software testing, Git/GitHub

## CORE COMPETENCIES

Cross-functional collaboration, Agile development, Code reviews & documentation, Problem solving, Attention to detail, Adaptability

## EDUCATION

**Bachelor of Engineering (B.E.)** 2010

Narayana Guru College of Engineering – Anna University, Kanyakumari, Tamil Nadu, India

## CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Postgraduate Program in AI Agents & Generative AI for Business Applications — In Progress
